

ATTENDANCE REQUIREMENTS AND COURSE CREDIT POLICY

It is intended that full course participation will result in receipt of credit; however, we recognize that some circumstances and some courses may require determination of partial credit as acceptable. Pamela Holland will be the primary reviewer of course content and make motion as to whether or not partial credit will be allowed and establish acceptance criteria. This will be done 3 months prior to the CE event. If partial credit is a viable option for a particular course, this information will be made available on the promotional materials as an option for participants. Otherwise, it should be noted that participation in a full session will be the only acceptable method of receiving ASHA credit for a course.
