Inspection & Sample Collection Field Sheet

Section 1 General Information				
Area Name :	Object ID:			
Investigators:	Form completed by:			
Weather:	sunny	Cloudy	Precipitation	
Rainfall last 24 HRS: (in):	Last 48 HRS			
Latitude:	Longitude:			
Land Characterization: (circle all that apply)	Grass	Impervious	Open space	Priority Area
	other (explain)			
Notes:				
Section 2 Structure Description				
Object:	Manhole	Storm Drain	Channel Drain	
Nature of flow:	sanitary only	combined	storm only	
Flow present	yes	no	if no, inspection complete	
Flow Description	trickle	moderate	substantial	
Material of pipe	PVC	Brick	Concrete	
	Terra-cotta	corrugated M	other	
Section 3 physical indicators of flowing structures (circle all that apply)				
If structure is manhole for sanitary only or combined the inspection is complete				
indicator	present: Y/N	Description		severity
odor		sewage	rancid	petroleum/gas
color		sulfide	other:	faint moderate severe
turbidity		clear	brown	gray
floatable (not trash)		green	orange	red
		yellow	other:	faint moderate severe
Section 4 Data collection				
Sample for lab?	yes	no	Any Comments:	
If yes, collected from:	flow	pool		
Intermittent flow trap set	yes	no		
Inspector Signature:	Date:
