## MAJOR INFORMATION

- After completing the required six foundation courses (ART 101 and ART 214, 215, 217, 218, 219), students pursuing the Bachelor of Fine Arts are required to present a portfolio of work for review by the Art and Design faculty. To do so, B.F.A. students must register for ART 298 before completing 21 credit hours in studio art courses (includes ART 214, 215, 217, 218, and 219). Successful completion of ART 298, Foundations Review: BFA, is required and is a prerequisite for program advancement. Students who do not receive a passing grade of C in the Foundations Review and are within the studio art credit hour range listed above may apply for reconsideration. Students who have transferred within Marshall University will have two semesters to complete the courses listed above and participate in this review.
- Students enrolled in the Bachelor of Fine Arts degree program must complete all work in the major with a minimum grade of C. A student who receives a D or F in an art course counted toward graduation must repeat

- it and earn at least a C before graduation or before using that course as a prerequisite for another required course.
- Forty (40) credit hours must be earned in courses numbered 300-499.
- No course in the major requirements for graduation may be taken Credit/Non-Credit unless the course is so specified.

Milestone Course: This is a key success marker for your major. See your advisor to discuss the importance of this course in your plan of study.

# BFA IN FINE ARTS: VISUAL ARTS SCULPTURE

In the Sculpture emphasis we think conceptually, work in an interdisciplinary way, experiment readily, and form a deep skill set in a wide range of materials using numerous processes. Our students become adept in the wood and metal shops along with becoming proficient in a number of computer technologies to aid in construction. Outside of traditional sculpture, we experiment with video and sound installations, performance, social practice, public art, and aspects of post-studio artmaking. All these ways of making demand critical thinking skills to invent creative solutions. In addition to extensive hands-on work, students can expect to get an in-depth understanding of contemporary sculpture and the artists who are expanding the field.
