

BIOCHEMISTRY

REQUIREMENTS

CORE CURRICULUM

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at marshall.edu/gened.

MY ADVISOR'S NAME IS:

CORE 1: CRITICAL THINKING						CORE 2:						
CODE	COURSE NAME		HRS	GRADE		CODE	COURSE NAME		HRS	GRADE

HRS GRADE

MAJOR INFORMATION

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 3 hours of Calculus, and 40 hours of upper level credit.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a minor or toward prerequisities.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II Humanities requirement as well as the University writing intensive requirement.
- Course offerings and course attributes are subject to change each semester. Please consult each semesters schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 27 or higher. Students with

- an ACT Mathematics score less than 27 will be placed in the appropriate prerequisite mathematics and science courses.
- CHM 358 or 411 is recommended for students considering graduate school.
- The BSC coursework provides a Biological Sciences minor.

COURSE NAME

HRS GRADE

- A Grade Point Average of 2.0 is required 1) overall, 2) at MU, 3) in all required Chemistry courses, 4) in all Chemistry courses, and 5) in all required Chemistry courses taken at MU.
- Biochemistry Electives: Select from the following courses. At least one course must be 4 credit hours, and at least one must be a CHM course. BSC 302, 422, 428, 443, 448, 450, 456, CHM 345, 357, 358, 411, 448, 451, 465, 466.
- Double majors within the Department of Chemistry may include any majors other than the B.S., Major in Chemical Sciences. A double major of Forensic Chemistry with Biochemistry is also currently not permitted.

FOUR YEAR PLAN COLLEGE OF SCIENCE 2024-2025

BIOCHEMISTRY

Summer Term (optional):

Students completing the Biochemistry major will be prepared for career opportunities in the biotechnology, forensics, environmental, pharmaceutical, agricultural, and medical fields. Students will also be well prepared for graduate-level study in biochemistry, biotechnology, and genetics and molecular biology. Additionally, Biochemistry is an excellent choice for students desiring to attend professional training in Medicine, Dentistry, Pharmacy, Law or Engineering.

GRADUATION REQUIREMENTS

- Have a minimum of 120 credit hours (some colleges or majors require more);
- · Have an overall and Marshall Grade Point Average of 2.00 or higher;
- Have an overall Grade Point Average of 2.00 or higher in the major area of study;
- · Have earned a grade of C or better in English 201 or 201 H;
- Have met all major(s) and college requirements:
- Have met the requirements of the Core Curriculum;
- · Have met the residence requirements of Marshall University, including 12 hours of 300/400 level coursework in the student's college (see section entitled "Residence Requirements" in the undergraduate catalogue);
- Be enrolled at Marshall at least one semester of the senior year;
- · Have transferred no more than 72 credit hours from an accredited West Virginia twoyear institution of higher education.

Colleges and specific programs may have unique requirements that are more stringent than those noted above. Students are responsible for staying informed about and ensuring that they meet the requirements for graduation.

This academic map is to be used as a guide in planning your coursework toward a degree. Due to the complexities of degree programs, it is unfortunate but inevitable that an error may occur in the creation of this document. The official source of degree requirements at Marshall University is DegreeWorks available in your myMU portal. Always consult regularly with your advisor.

BIOCHEMISTRY — 2024-2025

YEAR ONE

Develop relationships with professors who can serve as future references by attending their office hours.

In order to graduate on time, you need to take an average of 15 credits per semester. Are you on track? Take 15 to Finish!

Join the Alpha Chi Sigma chemistry professional fraternity.

Stay on the Herd Path and come to class! Class attendance is more important to your success than your high school GPA, your class standing, or your ACT/SAT scores.

Discuss undergraduate research opportunities with faculty in Chemistry right now.

Take a pulse check. Know what you need to do every year to keep your grants, scholarships, or federal financial aid.

Apply for a nationally competitive scholarship like Goldwater, Fullbright, Rhodes, or Gates Cambridge. Contact the Office of National Scholarships at Marshall.

YEAR THREE

Apply for a nationally competitive scholarship like Goldwater, Fullbright, Rhodes, or Gates Cambridge, Contact the Office of National Scholarships at Marshall.

Apply in the spring semester for Chemistry Department scholarships and summer fellowships.

Did you do really well in a hard course? Become a Tutor or a Supplemental Instructor.

Develop relationships with professors who can serve as future references by attending their office hours.

Present your research at a national or regional American Chemical

Want to continue your education and increase your opportunities? Talk to a faculty member about whether graduate school fits your career goals.

Discuss undergraduate research opportunities with faculty in

Society meeting.

· Chemical Engineer

TRANSFERABLE SKILLS

Technological Literacy

Pharmacist

ASSOCIATED WITH THIS MAJOR

• Oral and Written Communication Skills

• Ability to Work as Part of a Team

Chemistry right now.

YEAR TWO

Did you do really well in a hard course? Become a Tutor or a Supplemental Instructor.

attending their office hours.

Apply in the spring semester for

Chemistry Department scholarships

and summer fellowships.

Discuss undergraduate research opportunities with faculty in Chemistry right now.

Present your research at a national or regional American Chemical Society meeting.

Want to continue your education and increase your opportunities? Talk to a faculty member about whether graduate school fits your career goals.

Apply for a nationally competitive scholarship like Goldwater, Fullbright, Rhodes, or Gates Cambridge. Contact the Office of National Scholarships at Marshall.

YEAR FOUR

This is it! Are you on track to graduate? Meet with your advisor for your Senior Eval to see what requirements you have left.

Did you do really well in a hard course? Become a Tutor or a Supplemental Instructor.

Want to continue your education and increase your opportunities? Talk to a faculty member about whether graduate school fits your career goals.

Present your research at a national or regional American Chemical Society meeting.

Complete admissions exams (GRE, MCAT, PCAT) the summer before your senior year.

Be at the top of your professional game! Prepare a final resume and practice your interview skills with a career coach in Career Education.

Present your research at the College of Science Research Day.

Marshall University College of Science 1 John Marshall Drive Huntington, WV 25755 1-304-696-3170 cos@marshall.edu marshall.edu/cos
