REQUIREMENTS

BIO PHYSICS

CORE CURRICULUM

The Core Curriculum is designed to foster critical thinking skills and introduce students to basic domains of thinking that transcend disciplines. The Core applies to all majors. Information on specific classes in the Core can be found at marshall.edu/gened.

							Free Elective		1	

MAJOR INFORMATION

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- In addition to the Core General Education requirements, the College of Science requires 3 hours of Calculus, and 40 hours of upper level credit.
- Coursework listed as "elective" may vary for each student. Students are encouraged to use elective hours toward a 2nd minor or toward prerequisities.
- Students are strongly encouraged to select courses that meet two or more Core or College requirements. For example, a writing intensive literature course could satisfy the Core II humanities requirement as well as the university writing intensive requirement.
- Course offerings and course attributes are subject to change each semester. Please consult each semester's schedule of courses for availability and attributes.
- Math is based on an ACT Mathematics score of 27 or higher. Students with

- an ACT Mathematics score less than 27 will be placed in the appropriate prerequisite mathematics and science courses.
- In order to graduate, students must maintain a 2.00 Overall GPA and receive
- a grade of C or better in each course required for the major. • Advanced physics courses are offered every two to three semesters; check
- Let the Department Chair know if you have an interest in a particular elective course as soon as possible.

with the Physics Department for availability.

FOUR YEAR PLAN COLLEGE OF SCIENCE 2023-2024

PHYSICS

A course of study in physics, resulting in a B.S. degree in physics, prepares students for a wide variety of opportunities, such as engineering careers in the private sector, careers in the health professions, employment in industry and government laboratories, advanced technology jobs in science and technology related fields, and careers as science teachers. The B.S. degree program is also excellent preparation for advanced degrees in physics, astronomy, engineering, medicine, or law. Rio Physics is designed for those who are interested in future study or work in a hiophysics or hiotechnological field

- Biology

GRADUATION REQUIREMENTS

- Have a minimum of 120 credit hours (some colleges or majors require more);
- · Have an overall and Marshall Grade Point Average of 2.00 or higher;
- Have an overall Grade Point Average of 2.00 or higher in the major area of study;
- Have earned a grade of C or better in English 201 or 201 H;
- Have met all major(s) and college requirements;
- Have met the requirements of the Core Curriculum:
- Have met the residence requirements of Marshall University, including 12 hours of 300/400 level coursework in the student's college (see section entitled "Residence Requirements" in the undergraduate catalogue);
- Be enrolled at Marshall at least one semester of the senior year:
- Have transferred no more than 72 credit hours from an accredited West Virginia twoyear institution of higher education.

Colleges and specific programs may have unique requirements that are more stringent than those noted above. Students are responsible for staying informed about and ensuring that they meet the requirements for graduation.

This academic map is to be used as a guide in planning your coursework toward a degree. Due to the complexities of degree programs, it is unfortunate but inevitable that an error may occur in the creation of this document. The official source of degree requirements at Marshall University is DegreeWorks available in your myMU portal. Always consult regularly with your advisor.

YEAR ONE

Have questions? Need to talk? You already have a Friend-At-Marshall ready to help you succeed. Find your FAM Peer Mentor here: www.marshall.edu/fam

Participate in a Career Exploration Experience (job shadow) to help identify your career goals.

Join or create a club or organization on campus about a particular issue you care about. Marshall has more than 200 student organizations.

Stay on the Herd Path and come to class! Class attendance is more important to your success than your high school GPA, your class standing, or your ACT/SAT scores.

In order to graduate on time, you need to take an average of 15 credits per semester. Are you on track? Take 15 to Finish!

Take a career self-assessment to help determine what majors fit your talents and interests.

YEAR THREE

Submit your work for annual competititions and awards.

BIOPHYSICS - 2023-2024

Complete graduate admissions exams (GRE, MCAT, LSAT) the summer before your senior year.

Apply to be a New Student Orientation Leader or a Campus Tour Guide.

Meet with a career education specialist to conduct a "gap analysis." Figure out the skills you'll need for the career you want while you still have time to build them.

Are you on track to graduate? Meet with your advisor for your Junior Eval to make sure you know what requirements you have left.

Take an elective course that links diversity to your field of study.

Want to continue your education and increase your opportunities? Talk to a faculty member about whether graduate school fits your career goals.

Strengthen your resume and

enhance your presentation skills.

Present what you've learned at an

academic conference off campus.

YEAR FOUR

Develop relationships with professors who can serve as future references by attending their office hours.

Did you do really well in a hard course? Become a Tutor or a Supplemental Instructor.

No need to wait until graduate school. Discuss undergraduate research opportunities with faculty in your major right now.

YEAR TWO

Are you completing enough credits to graduate on time? Dropping or failing a class can put you behind. Use summer terms to quickly get back on track.

Begin your Math Methods of Physics to meet your prerequisites for upper division classes.

Take a pulse check. Know what you need to do every year to keep your grants, scholarships, or federal financial aid.

Think about who can help you grow as a student and a professional professors, advisors, alumni, etc. and ask at least one to be your mentor.

This is it! Are you on track to graduate? Meet with your advisor for your Senior Eval to see what requirements you have left.

Did you do really well in a hard course? Become a Tutor or a Supplemental Instructor.

Be at the top of your professional game! Prepare a final resume and practice your interview skills with a career coach in Career Education.

Networking is key! Attend a Career Expo to seek employment opportunities and network with employers in your field.

Participate in Department of Physics outreach events with local high school students. Stay engaged and make a difference.

Prepare to present at Physics Department Research Day and CoS Research EXPO in April
