COMPUTER AND INFORMATION SECURITY

The Bachelor of Science in Computer and Information Security program prepares students for careers in computer and information security fields through a strong foundation in the theory and practice and the broad education gained by core curriculum. Computer and information security is an evolving discipline that involves the study of technology, strategy, policy, and standards regarding the security of and operations in cyberspace. The program introduces students to a variety of topics in computer and information security such as computer and network protection, penetration testing and prevention, security in mobile devices and Internet of Things (IoT), and more by using state-of-the-art security tools and technologies.

YEAR ONE

Have questions? Need to talk? You already have a Friend-At-Marshall ready to help you succeed. Find your FAM Peer Mentor here: www.marshall.edu/fam

Stay on the Herd Path and come to class! Class attendance is more important to your success than your high school GPA, your class standing, or your ACT/SAT scores.

In order to graduate on time, you need to take an average of 15 credits per semester. Are you on track? Take 15 to Finish.

Join professional associations in your field like IEEE, ACM, etc.

Take a pulse check. Know what you need to do every year to keep your grants, scholarships, or federal financial aid.

Join the Computer Club and reach out for community activities.

Sign up for Handshake! Handshake is the #1 place to launch a career with no connections, experience, or luck required. The platform connects up-and-coming talent with 650,000+ employers.

YEAR TWO

Are you completing enough credits to graduate on time? Dropping or failing a class can put you behind. Use summer terms to quickly get back on track.

Apply to be a New Student Orientation Leader or a Campus Tour Guide.

Did you do really well in a hard course? Become a Tutor or a Supplemental Instructor.

Join the Marshall Mentor Network and connect with professionals in your field to discuss your major, career path, and more.
Have you considered adding a minor? Think about personal areas of interest you'd like to explore or how you might enhance your major with a related skill set.

Want to continue your education and increase your opportunities? Talk to a faculty member about whether graduate school fits you career goals.

No need to wait until graduate school. Discuss undergraduate research opportunities with faculty in your major right now.

YEAR THREE

Develop relationships with professors who can serve as future references by attending their office hours.

in order to work in your field, you need to take a certification exam. Develop a study strategy now. Check with your advisor.

Are you on track to graduate? Meet with your advisor for your Junior Eval to make sure you know what requirements you have left.

Run for Student Government and represent your fellow students while making a long-term difference on Marshall's campus.

Networking is key! Attend a Career Expo to seek employment opportunities and network with employers in your field.

Your degree requires an internship. Start planning now! Meet with your advisor to discuss your internship opportunities

Strengthen your resume and enhance your presentation skills. Present what you've learned at an academic conference off campus.

YEAR FOUR

This is it! Are you on track to graduate? Meet with your advisor for your Senior Eval to see what requirements you have left.

Prepare to present at the URDC Undergraduate Research and CS Syposium in April.

Think about who can help you grow as a student and a professional (professors, advisors, alumni, etc) and ask at least one to be your mentor.

Take a senior project class with Community Based Learning that connects course content to the community. Stay engaged and make a difference.

Explore peer leadership opportunities through the FAM program, or apply to be a UNI Peer Mentor.

Talk to faculty about pursuing optional professional certifications.

Be at the top of your professional game! Prepare a final resume and practice your interview skills with a career coach in Career Education.
