CRIMINAL JUSTICE

The Criminal Justice and Criminology Program provides undergraduate and graduate students with a high quality criminal justice education to prepare them for future success in: (1) public service (i.e., law enforcement, courts and administration, probation, parole, jails and prisons, juvenile justice, victims' services, and training/teaching); (2) law school; (3) graduate school; or (4) the private sector (i.e., loss prevention/security and corrections). A unique contribution of the Criminal Justice and Criminology program is to develop students' intellectual abilities, critical thinking skills, research skills, language/ communication skills, and problem-solving skills within a broadly based exposure to the study of the law, the legal system, and the practical realities of how social, economic, and political contexts influence the roles of professionals/practitioners and also the operation of the criminal justice system.
