MAJOR INFORMATION

- Students are required to know and track their degree requirements for graduation or for entrance to a professional school.
- Course offerings and course attributes are subject to change semesters. Please consult each semesters schedule of courses for availability and attributes.
- Students may declare a major in Social Work as early as freshman year. In order to become formally accepted into the program, however, students must complete SWK 203 (Introduction to Social Work) with a grade of C or above and at least 24 hours of general academic requirements with an overall grade point average of 2.0 or above. At that time, a student may complete an application and interview for acceptance into the program.
- It is expected that once a student is accepted into the program, academic requirements and standards will be maintained. Since it is a professional

program, continuing progress toward a professional level of performance is required. The B.S.W. degree is reserved for students who have demonstrated that level of competence. In addition to mastering a body of knowledge, a social worker must possess professional attitudes, skills, values and ethics. Academic performance in the B.S.W. program includes classroom performance, class attendance, ethical behavior, communication skills, and psychological well-being sufficient to maintain positive and constructive relationships with clients.

SOCIAL WORK

The Bachelor of Social Work is a professional degree allowing the student to enter an exciting and growing field. Social workers practice in a variety of settings including child welfare agencies, nursing homes, hospitals, schools, group homes, mental health centers, foster care agencies, and probation offices. Social workers work with individuals, families, groups, institutions, and communities and continually work to improve social conditions. The mission of the Marshall University Baccalaureate Social Work Program is to prepare students for the beginning level of practice as social work generalists grounded in the core professional values and competencies with an understanding and appreciation of the populations and institutions of Appalachia.
