JOURNALISM BROADCAST

Careers in journalism and mass communications are increasingly multilayered as technology and new media outlets spur fresh job titles and responsibilities in social media, web management, multimedia, video production, and data analysis in addition to traditional positions. Majors in SOJMC are configured to reflect new realities of the industry, provide a foundation for all JMC fields that then fan into specializations. An emphasis in broadcast journalism prepares students to report, produce, write, and edit news stories suitable for radio and television. Students gain hands-on experience by producing the campus television news program, MU Report, or by reporting for the campus radio station, WMUL-FM.
